

HEKTO DIAGNOSTIC

Audiometer

AUDIOMETER DIAGNOSTIC VERSION

HEKTO DIAGNOSTIC is the intermediate audiometer's version manufactured by HORENTEK®, it has 2 channels and is PC-based too. Developed for professionals looking for an easy-to-use device, with an intuitive software. A contemporary design and functional, small-sized Audiometer designed for those who also use it for outdoor visits. HEKTO DIAGNOSTIC can perform the following exams: AC PTA, AC Free field, Hughson-Westlake automatic audiometry, Bone conduction tonal audiometry and Speech audiometry with calibrated lists of words.
